

Connecting Specialty Solutions for Manufacturing

AQUAPHOENIX SCIENTIFIC- CONTINUOUS IMPROVEMENT

Certify continuous improvement
personnel and facilitate key events for
continued employee growth

Process
Improvement

COMPANY PROFILE

AquaPhoenix Scientific offers the flexibility to customize test kits and reagents with private labeling, custom test factors, and custom packaging to make the finished product unique to your company. They can develop customized reagents and chemicals to meet your specific needs for every application.

CHALLENGE

Through training, the intent is for continued employee growth focused on improvement to support our customers and shareholders.

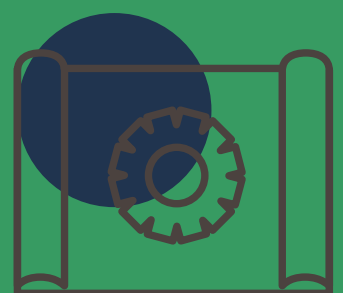

DESIRED RESULTS

To certify key continuous improvement personnel, as well as to facilitate key events such as Value Stream Mapping, Kaizen, etc.

MANTEC'S SOLUTION

MANTEC's Process Improvement Specialist curated a tailored LEAN training program for AquaPhoenix Scientific that included individual personnel growth plans and onsite events.

RETURN ON INVESTMENT

- The **consolidation** of manufacturing processes into a **new facility** with cellular manufacturing.
- A **40% growth year over year** in educational business, supported by improved labor performance with existing team members.
- A **continued 25% growth** year over year for the **next three years**.
