industry leader

Process
Improvement

Workforce
Engagement

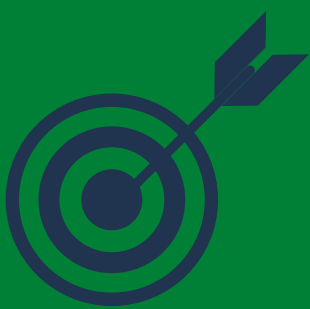

COMPANY PROFILE

Since 1961, Weaver Industries, Inc. has manufactured custom graphite and custom polyurethane products for the metallurgical, chemical, electronics, nuclear and aerospace industries.

CHALLENGE

The demand for its key product nearly tripled. This presented challenges for operations and workforce.

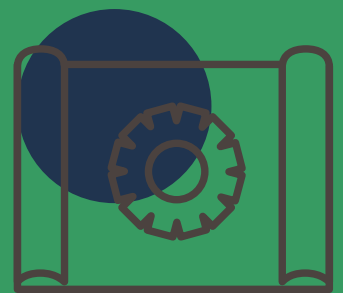

DESIRED RESULTS

Manage inventory, workforce training and compliance, and manage the new demand for key products.

MANTEC'S SOLUTION

MANTEC's Process Improvement and Workforce Engagement Specialists utilized LEAN tools to create better workflow eliminating inventory, bottlenecks, and throughput issues. MANTEC also created HR solutions training key leaders and helped identify an ERP system to meet current and future information needs.
